Chuck – You should receive an email indicating you have access to the OneDrive.

Please let me know if you don't receive it or have any questions.

Cheers!

Bill

Welcome back, Chuck! I'll add you back to the project coordination team. Bill – please provide Chuck access to the OneDrive.

Mike – friendly reminder to post the information from Chuck to the OneDrive when you have time.

Jacobs will take a look from a sediment removal stand point, but we will also share this information with the City of Akron so that they can evaluate any impacts to the bridge due to lowering of the water in the dam pool.

Thanks,  
-Mary Beth

Hi Mary Beth and Bill:

Chuck Hauber (formerly our park engineer and FTF team member) now works for the Summit County Engineer. Coordination with Summit County Engineer was one of our "to do" items from one of our past meetings. See below information Chuck has sent with regards to the bridge his agency manages that is within the dam pool area.

Summit County Engineer requests that Jacobs review these files and determine if the proposed project would impact this structure. Chuck has also requested that he be given access to the project OneDrive and would like to participate in future stakeholder meetings and conference calls.

I have copied him here so you will have his e-mail.

Thanks

Mike Johnson

Hello Mike,

The Front Street Bridge over the Cuyahoga River is Bridge **AKR 59-0275**, Structure file number **7730322**.

Attached is a portion of the bridge plans. Please have the design team look at the plans and determine what impacts the Gorge Dam removal project will have on the Bridge.

Hope everyone is safe. Thanks

Charles Hauber, P.E., P.S.  
Engineer Project Manager
